The Town of Windham

The town of Windham is my home and there are good things about it. We have a Boom Box parade plus the public library and good job. I love Windham because we have good education from the schools and the teachers that work at the schools. We have healthy foods and good restaurants. At the schools we have family game night for all of the families. We have calm and peaceful people and also great citizens. The town of Windham has hard working people. We also have Ecsu right next to us and we have people who care about our town of Windham and us. I love living in this town called Windham.
